### Reasons for the refusal of your application

To help you understand why your application was refused, below are the **Officer Decision Notes** (ODN) specific to your application as they are displayed in IRCC's system.

These notes were entered by the officer who assessed and made the final decision on your application.

I have reviewed the application. I have considered the following factors in my decision. The applicant's proposed length of stay in Canada is inconsistent with a temporary stay given the details provided in the application. The applicant's assets and financial situation are insufficient to support the stated purpose of travel for themselves (and any accompanying family member(s), if applicable). The applicant has significant family ties in Canada. The purpose of the applicant's visit to Canada is not consistent with a temporary stay given the details provided in the application. The applicant has limited employment possibilities in their country of residence. Weighing the factors in this application, I am not satisfied that the applicant will depart Canada at the end of the period authorized for their stay. For the reasons above, I have refused this application.

### Requesting ODNs in your official language of choice:
